MAN OF PROGRESS.

"Dut sime cated by give sense for mess. The sensy London type in terms to be preferred to

HOME-MADE YANKEE BOBSLED

Excellent Cosating Sied May Be Put Together by Handy Youngster —Easy to Guide.

Together by Handy Youngater — Lasy to Guide.

A rood coasting sled, which I cail a Yanbee bolt, can be made from two bardwoods barrel staver, two pieces of 2 by Clinch place, a piece of hardwood for the radder and a few pieces of barrel Villam Alaie, Jr., of Little Didls, N. Y., in Popular Meetra in a little longer than meething the length of the staves, and time a little longer than meething the length of the staves, and transparent to the staves with large wood green's as shown in Fig. 1. Boards had the romers had length in the barrel had been done to find the field of the state with large wood green's a seat to bold the romers shoul eighteen faches apart.

A 2 linch shaft of wood, Fig. 2, is turned down to I linch on the ends and put through holes that must be hored in the front ends of the 2 by Edine large. A shall pin is put through each end of the shaft in keep it in feare. The radder is a 15-lack handwood power which should be tupreed to question for the affect in the form and to question for the shaft of the shaft in keep it in feare. The radder is a 15-lack handwood power which should be tupreed to question for the first of the shaft in keep it in feare. The radder is a 15-lack handwood power which should be tupreed to question for the same and the form and the first color of the shaft in keep it in feare. The radder is a 15-lack handwood power which should be tupreed to question for the same and to the color of the shaft in keep it in fear the first of the shaft in keep it in fear the first of the shaft in keep it in fear the first of the shaft in keep it in the first of the shaft in keep it in fear the first of the shaft of the shaft in keep it in fear the first of the shaft in keep it in the first of the shaft in the first of the shaft in the first of the shaft in the first of the first of the shaft in the first of the shaft in the first of the shaft in the first of

Hunners Made of Barrel Staves, should with a thin piece of tran. A shall wish hole is bursel through the center of the shall and a lag screw jut through and turned in the middle piece, making it so the render with ton right and left and, also, up and down. The cleats are nathed to the upper sides of the minuters and in the light sides of the minuters and in the light lengthways for the person's leeds to rest against.

Any child can guide this bob, as all he has to do its to guide the modern tight and left to go in the direction appeal. He wants to stop, be putted to not the handle and the heel of the reader will dig into the snow, consing too mach frietdon for the sled to go say forther.

## NEW DOLL IS QUITE USEFUL!

Little Girls Can Use it as Muff to Keep Their Hands Warm—in-vented by New Yorker.

A doil that is also a mint, or a mint of mint of the morning tay insband was like in a doil, whichever way you see invented by a New ork man. The doil has the oneward

Use Dall for Mug.

Fehiliance of relates of the kind, but the trooben toward to and taken to the history of the trooben toward to and taken to the history of the trooben toward to and taken to the history of the history the late chromosysis it can ship her lands through into the soft month to side. To consider the effect the distance to effect the distance to effect the distance to the first through the carries a month that it is not only challen to be to have been distance to the first threshold north three haghest days when young women corrected, bays they can be successful three children three there is no reason why they should not carry one of these children to the same one of these children is as a substantial structure and inthicked it doubt enecess of attracting artern box at the same time.

As Unexpected Find.

You are always filterly to find things when you from expect. For instance there is the story now going the residue alore to manage about the william in Commendent who was presented to copied a distribution worth 1200. The comma and nor the least expects the other hand, a diamond worth 1200. The cotten had not in the roast, for the other hand with in the roast, for the other hand, if you have reast had extracted to the first hand extended to the first hand the roat with a migro-prope and an Xeary mending it to the Land, if you have reast had extended to the that you will not the first hand a 1200 diamond.

## The Cream of the Cotton

# Cottolene

The pick of the cotton seed is chosen for the making of Cottolene. The seed is crushed, the oil is extracted and refined by our own special process—and the finished result is the purest, cleanest, most healthful vegetable-oil cooking fat on the market.

Lard-soaked food retards digestion; Cottolene-cooked food aids digestion. Pay your money and take your choice!

## Wet Or Dry All The Same

Have you ever used the Seay, Guano, Distributor? If you have not then it will save you both time and money to try one if you are in need of such a machine on your farm

It is one of the very few machines of as kind that will distribute exents fertilizers sheller wet or dry, makes no difference

Buy one from us and if you are not satisfied with it after a thorough trial then return same to us and get your money back

This looks like a fair proposition to a manup a tree. Don't you think so:

These Distributors have no equal for side dressing or second application of Guano. This s also a good Oat Drill, new attachment, for Oil Drifting on this machine.

The band which furnished such de lightful music during the Chautaugua of last year will be here to give two concerts this week

## Friday and Saturday Nights

These concerts will be treats to the music lovers of Dothan, and will begiven at the High School Auditorium for the benefit of the High School Library fund.

Prices for admission 35, 50, & 75cts. Seats can be reserved at McCallum's Drug Store.

We Don't Make General Statements

about the clothes we taker to order, but we do guarantechibe outside fabric to be absolutely all-wool-not "nearly wool" nor a mixture that looks like woof for the first week or two

## We Guarantee Every Stitch Of Our Tailoring

and back up the interior construction of our clothes by actually replacing any coat in which the hair cloth front may have broken within a sear or any lining that hasn't given satisfactory

This is the best offer in town and we invite you to investigate it today

## Wet Or Dry All The Same

Have you ever used the Seay Guano Distributor? If you have not then it will save you both time and money to try one if you are in need of such a machine on your farm

It is one of the very few machines of its kind that will distribute evenly fertilizers whether wer or dry, makes no difference

Buy one from us and if you are not satisfied with it after a thorough trial then return same to us and get your money back

This looks like a fair proposition to a man up a tree. Don't you think so-

These Distributors have no equal for side dressing or second application of Guano This 's also a good Oat Drill, new attachment for Oat Drilling on this machine.

Dothan Hdw.
